1.0 Legal and institutional framework

1.1 Legal framework

1.1.1 List of the legal framework

- I. Legislation implementing the Temporary Protection Directive (TPD or the Directive)¹ and Council Implementing Decision (EU) 2022/382²

The [Regulation on temporary protection regime in the event of a mass influx of displaced persons, approved by Royal Decree 1325/2003 of 24 October 2003](#), in force from 26 October 2003 (TPRD 1325/2003), is the main legislation transposing the Temporary Protection Directive.

The Spanish temporary protection regime is based on two types of decisions with different legal basis.

- ▶ The general declaration of temporary protection which is based on the Council of the European Union Decision or the Spanish Government decision (Articles 4 to 6 of the TPRD 1325/2003) and the individual decision on the granting of the benefits of the temporary protection regime following the [Organic Law 4/2000 of 11 January](#) on rights and freedoms of foreigners in Spain and their social integration, as amended by the Organic Law 8/2000, of 22 December (Immigration Organic Law).
- ▶ [Royal Decree 203/1995, of 10 February 1995](#) (Asylum Regulation RD 203/1995), approving the Regulations for the application of the Law 5/1984, of 26 March 1984, regulating the right to asylum and refugee status, as modified by the TPRD 1325/2003, establishes the distribution of competences for granting the temporary protection. The relevant amendments introduced by the TPRD 1325/2003 entered into force on 26 October 2003. The Law 5/1984, of 26 March 1984, regulating the right to asylum and refugee status has been repealed and replaced by the [Law 12/2009](#) (Asylum Law). As this law has not been developed by any regulations, difficulties have emerged regarding the application of the RD 203/1995 as it refers to the 1984 Law.

The [Management Handbook](#) of the reception and integration system for applicants and beneficiaries of international protection provides guidance on the application of the relevant provisions establishing the Reception System for beneficiaries of international protection, including beneficiaries of temporary protection.

The Council Implementing Decision (EU) 2022/382 is implemented in Spain via several documents.

- ▶ [Order PCM/170/2022](#) of 9 March, publishing the Agreement of the Council of Ministers of 8 March 2022 to extend the temporary protection granted under the Council Implementing Decision (EU) 2022/382 of 4 March 2022 to persons affected by the conflict in Ukraine who may find refuge in Spain (Order PCM/170/2022) - within the meaning of Article 5 of the Directive 2001/55/EC, to additional categories of displaced persons. It entered into force on 10 March 2022.

¹ Council Directive 2001/55/EC of 20 July 2001 on minimum standards for giving temporary protection in the event of a mass influx of displaced persons and on measures promoting a balance of efforts between Member States in receiving such persons and bearing the consequences thereof, OJ L 212, 7 August 2001, p. 12-23, available at: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=celex%3A32001L0055>.

² Council Implementing Decision (EU) 2022/382 of 4 March 2022 establishing the existence of a mass influx of displaced persons from Ukraine within the meaning of Article 5 of Directive 2001/55/EC, and having the effect of introducing temporary protection, OJ L 71, 4 March 2022, p. 1-6, available at: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=celex:32022D0382>.

- ▶ [Order PCM/169/2022](#) of 9 March implementing the procedure for the granting of temporary protection to persons affected by the conflict in Ukraine (Order PCM/169/2022). This order entered into force on 10 March 2022.
- ▶ [Instruction 2/2022](#) adopted on 10 March 2022 by the Ministry of Interior, Police DG – General Police Commissioner for Immigration and Borders, establishes the procedure for temporary protection request for Ukrainian citizens, as well as displaced persons from Ukraine in Spain. This Instruction is the instrument used at each of the Provincial Immigration and Border Brigades, as well as to the Local Brigades of Algeciras, Vigo and Gijon, and the reception centres established by the Ministry of Inclusion, Social Security and Migrations in Alicante, Barcelona, Madrid and Malaga

II. Legislation having an impact on the (access to) (self-)employment and social security/welfare for the displaced persons coming from Ukraine

The Spanish legislation implements the provisions of the Directive regarding access to (self-)employment and social security/welfare for Ukrainians or displaced persons from Ukraine through the Immigration Law with the conditions and procedures applied to asylum seekers.

- ▶ **Article 16** of the of the [TPRD 1325/2003](#) establishes that beneficiaries of temporary protection will be granted temporary residence according to Article 41(3)a) of the **Regulation implementing the Organic Law 4/2000** of 11 January on rights and freedoms of foreigners in Spain and their social integration ([Immigration Organic Law 4/2000](#), as amended by Organic Law 8/2000, of 22 December) and approved by the Royal Decree 864/2001, of 20 July.
- ▶ **Article 19** of the **TPRD 1325/2003** establishes that an administrative authorisation to work shall be granted to beneficiaries of temporary protection in accordance with Article 79.1.b) of the **Regulation implementing the Organic Law 4/2000** of 11 January on rights and freedoms of foreigners in Spain and their social integration (**Immigration Organic Law**, as amended by [Organic Law 8/2000](#), of 22 December) and approved by the Royal Decree 864/2001, of 20 July. Furthermore, Article 129 recognises that temporary residence is accompanied by a work permit.
- ▶ The **Royal Decree 864/2001** implementing the Immigration Law is no longer in force and has only been partially replaced by other legislation, namely the Royal Decree 2393/2004 later repealed and replaced by the **Royal Decree 557/2011** ([Immigration Regulation RD 557/2011](#)). As such, the cross reference to Article 79.1 b) no longer applies.
- ▶ The **Immigration Regulation RD 557/2011** entered into force on 30 June 2011.
 - ▷ Articles 125 and 129 of the Immigration Regulation RD 557/2011 provide that an authorisation for reasons of **international protection** may be granted to the persons authorised to remain in Spain by decision of the Minister of the Interior, including displaced foreigners in the sense regulated in the **regulations on temporary protection** in the event of a mass influx of displaced persons. Likewise, a temporary residence permit may be granted in the cases provided for in the **regulations implementing** the Asylum [Law 12/2009](#), of 30 October.
 - ▷ **Article 129** of the Immigration Regulation RD 557/2011 provides that the granting of the authorisation for temporary residence according to Article 125 is accompanied by a **work permit** with the exception of the minors of working age.

- ▶ This is in line with **Article 10 of the Immigration Organic Law 4/2000** which establishes that all foreigners that are residents in Spain and meet the requirements set forth in the Immigration Organic Law have the **right to carry out a paid activity on their own account or on behalf of another, as well as to access the social security system**, in accordance with the current legislation. Those foreigners may also access **public employment** under the terms provided in Law 7/2007, of April 12, on the Basic Statute of Public Employees.
- ▶ **Article 3** of the [Order PCM/169/2022](#) establishes that the request for temporary protection enables the person to remain in the Spanish territory and to benefit from **the social aid** provided by **Article 20 of the TPRD 1325/2003** which states that beneficiaries of temporary protection who do not have sufficient resources may benefit from **social and health services** in accordance with asylum regulations.
- ▶ **Article 32 of the Law 12/2009** of 30 October regulating the right to asylum and subsidiary protection ([Asylum Law 12/2009](#)) recognises that applicants for international protection will be **authorised to work** in Spain under the terms established by law.
- ▶ Furthermore, **Article 36** of the Asylum Law 12/2009 establishes that the right to asylum will imply the recognition of other rights such as:
 - ▷ permanent residence and work authorisation, in the terms established by the Immigration Organic Law 4/2000;
 - ▷ the issuance of identity and travel documents;
 - ▷ access to public employment services;
 - ▷ access to education, health care, housing, social assistance and social services, the rights recognised by the legislation applicable to victims of gender violence, where appropriate, **social security** and to integration programs, under the same conditions as the Spanish;
 - ▷ access, under the same conditions as Spaniards, to continuing or occupational training and internships, as well as to procedures for the recognition of academic and professional diplomas and certificates and other official qualification tests issued abroad;
 - ▷ access to integration programs of a general or specific nature.

Other applicable laws are the following.

- ▶ Social Security General Law adopted by the [Royal Legislative Decree 8/2015](#) of 30 October which entered into force on 2 January 2016 in relation to the [Law 4/2000](#) and the Immigration Regulation [RD 557/2011](#).
- ▶ [Law 38/2003](#), of November 17, General Subsidies, and its implementing Regulation approved by the Royal Decree 887/2006, of 21 July (*Ley 38/2003, de 17 de noviembre, General de Subvenciones, y su Reglamento de desarrollo aprobado por Real Decreto 887/2006, de 21 de julio*).
- ▶ [Order ESS/1423/2012](#), of 29 June, which establishes the regulatory bases for the granting of subsidies in the area of integration of immigrants, applicants and beneficiaries of international protection, stateless status and temporary protection.

- b) Existence of a mechanism in place to coordinate the work of these national authorities with respect to persons enjoying temporary (or adequate) protection coming from Ukraine.

In order to request the temporary protection scheme there are special Reception, Attention and Referral Centres (CREADE) located in Madrid, Barcelona, Malaga and Alicante. In addition, the police stations in each provincial capital are also available and have received the above-mentioned coordination instruction.

The leading Ministry, designing the system and ensuring coordination with other authorities, is the Ministry for Internal Affairs involving the following units: Secretary of State for Security, Sub-Secretary for Internal Affairs with the Asylum and refuge office, General Commissioner for Immigration and Borders.

This Ministry for Internal Affairs has created an Inter-ministerial Committee for Asylum and Refuge (CIAR) involving relevant Ministries such as the Ministry of Justice, the Ministry of Foreign Affairs, the Ministry of Inclusion, Social Security and Immigration, and the UNHCR representatives.

2.0 Possibility of changing the status

- a) Difference between temporary protection status and other forms of adequate protection³ under national law, in respect of third country nationals and stateless persons coming from Ukraine.

Temporary protection is granted on two decisions with different legal basis:

- ▶ first, based on the general declaration of temporary protection adopted by the Council of the European Union or by the Spanish Government, which is based on the TPRD 1325/2003 (Articles 4 to 6 of the TPRD 1325/2003);
- ▶ second, based on that declaration, an individual decision on granting the benefits of the temporary protection regime is taken by the Ministry of Internal Affairs, upon the interested parties' request which is processed by the Asylum and Refuge Office, and at the proposal of the Inter-ministerial Commission for Asylum and Refuge, according to the terms and periods established by the **Organic Law 4/2000** of 11 January on rights and freedoms of foreigners in Spain and their social integration (**Immigration Organic Law**, as amended by the Organic Law 8/2000, of 22 December).

The TPRD provides for a standalone regime. Specifically for persons displaced from Ukraine, **Article 5(1) of the Order PCM/169/2022** of 9 March establishes that *"The Minister of the Interior shall decide whether or not to grant temporary protection on the basis of a proposal from the Inter-ministerial Commission on Asylum and Refuges. **The decision granting temporary protection shall include authorisation for residence and work. Regarding the work authorisation in the case of minors, the provisions of the applicable regulations shall apply.**"*

The **procedure for temporary protection is faster** than for other forms of protection.

- ▶ Applications for temporary protection can be submitted in the special Reception, Attention and Referral **Centres** (CREADE) located in Madrid, Barcelona, Malaga and Alicante and in all the Province Foreign and Border Police Brigades and in some [Local Foreign and Border Police Brigades](#). **The resolution period is 24 hours.**

Having applied for temporary protection does not preclude from applying for international protection, including asylum. In the case of persons who have suffered individual persecution and have been refused international protection, they may apply for temporary protection or re-apply for international protection, if necessary, given that there has been a change of circumstances in Ukraine that justify the risk in case of return. Further information can be found [here](#).

Persons benefiting from temporary protection may also apply for recognition of a refugee status. However, the benefits of temporary protection shall not be accumulated with the benefits of the asylum seeker when the application is being processed (RD 1325/2003, Article 22).

It should be noted that, under Spanish law, temporary residence may be granted on different grounds with different regimes being applicable.

³ 'Adequate protection' under national law is referred to in Article 2(2) of the Council Decision as a possible alternative that may be offered by Member States to temporary protection and therefore does not have to entail benefits identical to those attached to temporary protection as provided for in Directive 2001/55/EC. Nevertheless, when implementing the Council Decision, Member States must respect the Charter of fundamental rights of the European Union and the spirit of Directive 2001/55/EC. The respect for human dignity and therefore a dignified standard of living (such as residency rights, access to means of subsistence and accommodation, emergency care and adequate care for minors) has to be ensured in respect of everyone.

Temporary residence on grounds of international protection (asylum) (Article 125 of the Immigration Regulation RD 557/2011)

- ▶ The process is longer, and harder as it is necessary to prove that the person is being persecuted for political, religious, ethnic, sexual or other reasons.
- ▶ The application must be submitted at the Spanish frontiers, in the authorised [Police stations, foreigners' offices or embassies](#), or in detention centres.
- ▶ During the first six months of the application process, the applicants do not have a work permit, unlike the temporary protection status which grants the right to work in Spain since its granted.
- ▶ However, it is not subject to a maximum protection term, it cannot be terminated by the Council Decision and it provides a more extensive regime of rights, which include:
 - ▷ the right to non-refoulement or expulsion from the territory of Spain after recognition of international protection;
 - ▷ residence and work authorisation;
 - ▷ issuance of identity and travel documents;
 - ▷ access to public employment services;
 - ▷ access, under the same conditions as Spaniards, to education, health care, housing, social assistance and social services, to the rights recognised by the legislation applicable to victims of gender violence, where appropriate, to social security and integration programs;
 - ▷ access, under the same conditions as Spaniards, to continuing or occupational training and internships, as well as to procedures for the recognition of academic and professional diplomas and certificates and other official qualification tests issued abroad;
 - ▷ freedom of movement.

The procedures for temporary protection and international protection are compatible. That means that a person from Ukraine may request an asylum status in parallel to the temporary protection one, but the benefits will not be accumulated.

Temporary residence on humanitarian grounds (Article 126 of the Immigration Regulation 557/2011)

- ▶ This permit guarantees the possibility to reside and work legally in Spain for a period of one year (and extendable for another year) in cases where international protection status has been denied ([Ministry of Interior, Note on the Proposal for Granting Temporary Residence Authorisation for Humanitarian Reasons](#), Article 37 of the Law 12/2009, of 30 October, regulating the right to asylum and subsidiary protection and Article 123 and subsequent of the Royal Decree 557/2011).
- ▶ This option has been used only once on the basis of a decision of 28 February 2019 in relation to Venezuelan nationals who had applied for asylum in Spain after January 2014.

Temporary residence authorisation for exceptional circumstances of collaboration with public authorities, reasons of national security or public interest (Articles 127 and 129 of the Immigration Regulation 557/2011)

- ▶ Authorisation of residence can be:

- ▷ granted by the Secretary of State for Security when the authorisation is based on collaboration with police, prosecutorial and judicial authorities and in cases of national security;
- ▷ granted by the head of the Secretary of State for Immigration and Emigration in cases of collaboration with other administrative authorities and for reasons of public interest.
- ▶ Authorisation for residence gives access to the Foreigner Identity Card.
- ▶ Temporary residence authorisation due to exceptional circumstances is accompanied by a work authorisation in Spain during the validity of the former.

Relevant to note is also the regime established by the [Law 14/2013, of 27 September](#), which facilitates entry, residence and permanence in Spanish territory for reasons of economic interest. It is a business-friendly framework of visa and residence and work permits designed with the aim of attracting business related migration and highly skilled migrants such as: investors, entrepreneurs, highly qualified professionals, researchers, scientists and academics of universities and business schools, movement of persons related to trade of services: ICT, IP (independent professionals), CSS (contractor service suppliers) etc.

The main features are:

- ▶ fast track procedure
- ▶ no labour market test
- ▶ employer led system for highly qualified professionals
- ▶ facilities for family reunion (spouse with full access to labour market)
- ▶ intra EU mobility for ICT EU residence permits and business friendly framework.

- b) Possibility to file status change inside the territory without the requirement for the person to first leave the country or return to Ukraine from temporary protection or other forms of adequate protection to employment-based residence permit during the temporary protection regime and at the end of this regime (e.g. single permit for work, EU Blue Card for highly-qualified workers, seasonal workers, family reunification).

In principle, the protection is temporary and therefore once the conditions for protection expire, the beneficiaries should leave Spain. There is no possibility for remaining, working or having a reunification after the temporary protection is ended.

- c) Relevant national legislation on changing the status (including the procedure to be followed).

There are no specific issues or salient points identified for this question.

- d) Measures aiming to preclude registration of displaced persons in more than one Member State/EEA-EFTA country (see Article 26 of the Temporary Protection Directive).

Temporary protection in Spain grants the right to residence in Spain but not in other countries. This authorisation for residency has all the legal effects, including the possibility to come back to Spain from any EU Member

State where the person might have travelled for short periods (not as resident). However, to travel to other countries, the person needs to have a passport and fulfil the requirements in the country of destination.

Such persons cannot move to be residents in another Member State unless they renounce temporary protection in Spain. Freedom of movement only applies within the national territory (Article 14 TPRD 1325/2003). If persons renounce temporary protection in one Member State according to Article 24(1)d) TPRD 1325/2003, to apply for temporary protection in a second Member State, it is at the discretion of the latter to grant it or not and there might be additional requirements. Further information can be found [here](#).

3.0 Access to labour market (Article 12 of the Temporary Protection Directive)

- e) Overview on how equal treatment on the labour market as regards working conditions is ensured for persons enjoying temporary (or adequate) protection from Ukraine.

Once the work permit is granted, equal treatment is applied to all workers pursuant to Article 17(1) of the Worker's Statute which determines that any regulatory provisions, clauses of collective agreements, individual agreements and unilateral decisions of the employer which give rise to situations of **direct or indirect unfavourable discrimination**, including on grounds of **origin, including racial or ethnic origin**, shall be null and void and without effect.

Pursuant to **Article 5 of the [Order PCM/169/2022](#)** the decision of the Minister of Interior granting temporary protection shall include authorisation for residence and work. Thus, citizens who have been granted temporary protection have **the right to work under the same conditions as Spanish citizens**.

In addition, **Article 36 of the [Asylum Law 12/2009](#)** recognises:

- ▶ the right to work in the terms established by the Immigration Organic Law 4/2000;
- ▶ access to education, health care, housing, social assistance and social services, the rights recognised by the legislation applicable to victims of gender violence, where appropriate, social security and to integration programs, **under the same conditions as the Spanish citizens**;
- ▶ access, **under the same conditions as Spanish citizens**, to continuing or occupational training and internships, as well as to procedures for the recognition of academic and professional diplomas and certificates and other official qualification tests issued abroad.

- f) Conditions applicable to persons enjoying temporary (or adequate) protection from Ukraine, (including the procedure to be followed):

- I. The conditions regulating work permits/work authorisation, if required

The requirements for the work permit based on the residency authorisation for temporary protection are established in Article 64(3) of the [Immigration Regulation RD 557/2011](#).

- ▶ The employer needs to present a work contract signed by the worker and by itself that guarantees the worker a continued activity during the period of validity of the initial authorisation for temporary residence and employment.

- ▶ The conditions established in the employment contract need to be adjusted to those established by current regulations and the applicable collective agreement for the same activity, professional category and location.
- ▶ The requesting employer needs to formalize the registration in the corresponding regime of the social security system and should be up to date with the fulfilment of its tax and social security obligations.
- ▶ The employer needs to have sufficient economic, material or personal means for the business project and to meet the obligations assumed in the contract with the worker.
- ▶ The worker has the training and, where appropriate, the professional qualification legally required for the exercise of the profession.

The work permit gives the right to work under the same conditions as for Spanish citizens.

II. Recognition of qualifications/diplomas

The recognition of diplomas in Spain is regulated by the [Royal Decree 104/1988](#) of 29 January 1988 on the recognition and validation of foreign qualifications and studies in non-university education. This Royal Decree has been amended to allow persons benefiting from the temporary protection to exceptionally, and for the purposes of initiating the procedure, replace the required documentation referred to in the Royal Decree with a declaration of responsibility with temporary validity ([Royal Decree-Law 6/2022 of 29 March](#) adopting urgent measures within the framework of the National Response Plan to the economic and social consequences of the war in Ukraine (second final provision and second transitional protection)).

II. Eligibility conditions

Social security

- ▶ The public social security system in Spain is called the “universal health system”. This means that the entire population of the country, including foreigners, displaced persons, asylum seekers and stateless persons, can access free medical or health care through the National Health System (SNS), in certain circumstances that we explain later.
- ▶ The main applicable legislation is the Social Security General Law adopted by the Royal Legislative Decree 8/2015 of 30 October, which entered into force on 2 January 2016 in relation to the Law 4/2000 and the Immigration Regulation RD 557/2011 and whose Article 63 establishes that the initial authorisation for temporary residence and paid employment requires the foreign persons to have been registered in the corresponding social security regime within a period of three months from their arrival date. The beneficiaries should also apply for the corresponding Foreigner Identity Card within one month from their registration in the corresponding Social Security system, in accordance with the provisions of this chapter.

On that basis the social security rights will cover the beneficiary of temporary protection.
- ▶ The Foreign Identity Card is needed to obtain the Social Security Number which opens the possibility for getting the health card to benefit from the public health system. The card takes about a month to arrive.
